Believe R.I. - Un. Pac. Merger Would Aid Area

Action by the stockholders of the Rock Island railroad approving plans for a merger with the Union Pacific railroad is expected to have far reaching effects on this area if the deal is finally approved by the interstate commerce commission.

The Union Pacific railroad has a reputation as a money maker and a developer of the areas it serves and may believe that it would be highly beneficial to this region.

This southwest area, it has been pointed out by planners, is destined for tremendous growth. Guiding such a growth is of vast importance, it was said, and communities will need aid in shaping it.

Development of the stretch between Joliet and Chicago would effect not only the towns along the Rock Island such as New Lenox, Mokena, and Tinley Park, but would also serve to develop such areas as Frankfort and Orland Park.

Observers point out that the Union Pacific has always been well operated and it has always labored to develop the territory it serves. Half of its revenues, it was explained, come from the development of its timber, oil, gas and other holdings. The Union Pacific, like most railroads, received assistance from the government when they were built in the form of land grants. Such grants not only provided right-of-way but thru their sale and development the railroads were able to finance a part of the building and equipment cost.

The stockholders of the Rock Island began voting on the proposed merger last Thursday and the count was completed last Sunday. It was announced then that the proposal, which has been under steady fire by the Northwestern railroad which wants to take over the Rock Island, was overwhelmingly approved by the stockholders. Almost 79 per cent of those voting were in favor of the merger. More than 2-million shares were voted in favor of the merger as opposed to some 200,000 shares in opposition as the proposition carried around 8 to 1.

The deal now goes before the ICC for final action, unless the Northwestern decides to hold it up for a still longer period by taking the case into the courts. Those familiar with how deals of this nature work out believe that it will take from two to five years before the case is finally decided.

First, however, the stockholders of the Union Pacific must approve the plan before it goes to the ICC and that is not scheduled until next May. The Northwestern railroad will fight the merger before the ICC and claims that five more western roads will be in there pitching with the same view.

The Northwestern railroad, which had one good year of business out of several not so good, offered a package deal of stock notes

and cash for Rock Island stock. The Union Pacific is offering one share of a new preferred stock for each share of Rock Island stock. This new stock would pay a guaranteed dividend of \$1.80 a year for the next three years and also carry voting rights.

The Northwestern wants to get a connection with the south and southwest and would like to accomplish it thru a merger with the Rock Island. The Union Pacific wants to get into Chicago and merger with the Rock Island would make this possible. It is said that if the Union Pacific gets the Rock Island it will sell about 3,500 miles of track south of Kansas City.

If the merger is approved

by the ICC the Union Pacific plans improvements of the roadbed and rolling stock for the benefit of passengers as well as shippers. It also has earmarked \$15,000,000 for the development of a freight yard in the Chicago area, the location of which is to be announced later.

Orland Baby No.1 In Area Births For 1965

Gerald Henry Klotz, Jr., Orland Park, is the winner of the "First Baby" contest conducted by area merchants thru the Graphic Newspapers for 1965.

He is the son, and second child, of Mr. and Mrs. Gerald H. Klotz, Sr., of 14472 S. Beacon, Orland Park. Their other child is 6-year-old Patricia, who thinks it is wonderful to have a baby brother. Incidentally this is the first time that a "first" baby in the area came from Orland Park. The area is made up of Orland, Frankfort, Green Garden and New Lenox townships.

Gerald, Jr. was born at Silver Cross hospital, Joliet, on Jan. 2, and weighed 8 1/2 pounds at birth.

Paul Voss, Jr., former Orland Park village trustee and fire chief, and Mrs. Voss are the maternal grand-

parents.

As the first baby Gerald, Jr., will receive numerous gifts:

Welsch Lumber Co., Mokena, a baby thermometer. Economy Food Market, New Lenox, a case of baby food.

Normans Cleaners, Orland Park, \$3 worth of dry cleaning.

Braun Sales, New Lenox, a baby blanket.

The Bootery, Orland Park, first baby shoes.

Murphy Insurance Agency, Orland Park, \$1,000 life policy for the first year.

Elliott Rexall pharmacy, New Lenox, a baby light.

Cooper & Hostert Ford garage, \$5 gift certificate.

Mokena Pharmacy, new mother's gift box.

Orland State Bank, \$5 in a savings account.

Lincoln-Way pharmacy, a case of baby food.

Behnke Studio, U.S. 30, Lincoln Estates, a 11 x 14 gold tone portrait.

And a year's subscription to the Orland Park Herald from the Graphic Newspapers makes Gerald, Jr. the youngest subscriber on the list.

AID MOKENA FIRE DEPT. -- The Ladies Auxiliary gave the department \$500, representing the proceeds from the Hard Times dance the women sponsored last fall. Presentation of the check to Fire Chief Robert Rust was made by Mrs. Beverly Haas, president of the Auxiliary. The department is adding \$150 to the amount and has ordered two Scott Air-Paks. These masks are equipped with tanks containing the regular air one breathes normally, thus shielding the wearer from toxic gases and smoke. The two masks with two auxiliary tanks are costing about \$650, according to a department spokesman. The Orland Park department purchased four of the devices this week.

Office Machines Worth \$1,100 Stolen At School

Two electric typewriters and an electric adding machine were stolen from the Oakview school office at New Lenox early Friday morning (Jan. 8). The value was estimated at \$1,100 by school officials, according to the New Lenox police report.

Each of the typewriters was valued at \$300. One was an IBM and the other an Underwood. The adding machine, an Olivetti Underwood, was valued at \$500. Entry was gained by breaking out a window. The

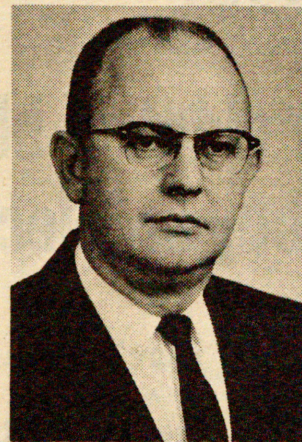

thief, or thieves, left the building thru a door.

The reports to New Lenox Police Chief George Kennedy show that a check of the building at 4:30 last Friday morning found everything intact. The burglary, therefore, took place sometime between 4:30 and 7 a.m., when the school was opened.

Nothing else was taken but the typewriters and adding machine, indicating perhaps that the items were taken to fill an order.

DR. FREDA S. KEHM, featured daily on WBBM in "Call Dr. Kem," will be the speaker at the Mokena PTA meeting Jan. 26. Dr. Kem is on the advisory board of "Child Study Association of America," and the board of advisory editors of "Parents Magazine" and "Today's Child." She also is identified with numerous groups dealing with family matters.

ROBERT R. VAN RHEEDEN was honored January 6, by a banquet in celebration of his nomination to membership in Kappa Delta Pi, Honor Society in Education, at the University of Illinois chapter in Urbana. The purpose of the organization is to further a high degree of consecration to social service. It fosters the highest educational ideals, fellowship, achievement.

Outstanding in Mr. Van Rheeden's qualification for this honor is the straight A (5.00) grade average he has maintained in his graduate work at the University of Illinois.

Orland Grade District Borrows On Its Taxes

Its revenue's failure to keep pace with cost of operation the Orland grade school district went to the bankers this week to borrow money to meet its current bills.

The board of education at its meeting last night (Wednesday) planned to sell \$50,000 of tax anticipation warrants. They, of course, will carry interest and must be paid off as soon as the 1964 tax money becomes available this spring.

Payroll and bills due this month amount to \$34,900 and the district had only \$2,600 on hand to meet these obligations. Hence the \$50,000 in tax warrants. Norbert Jerling said this week that he hoped some of the tax money would be available before the sum is exhausted but it was expected that another \$60,000 would be needed to see the district thru the rest of the school year.

School boards operate on a fiscal year that runs from July 1 to June 30, about in the middle of tax collections.

The reason the Orland district believes it can get

Orland Park Fire Dept. Found 1964 A Busy Year

The Orland Park Volunteer Fire Department, under the command of Chief Arthur Granat, was kept on the move in 1964.

Figures released by Elmer Kukac, the department's public relation representative, revealed a substantial increase in the number of calls handled by the department this past year as compared to 1963.

In 1963 the firemen responded to 163 calls. In 1964, the volunteers answered 137 fire calls and 87 rescue calls; in all, a total of 224 cases.

A comparison of figures for the two years showed an increase of 37% or 61 addi-

Ida Mahaffay Dies; Rites On Tuesday

Mrs. Ida Hyink Mahaffay, 88, a long time resident of the area, died last Saturday, Jan. 9, at her home, 12031 S. 72nd court, Palos Heights. She and her husband, J. W. Mahaffay, who survives, have resided at that address for the past 12 years. Previously they had lived in Palos Park.

Mr. Mahaffay's given name is James but he has always been known as J.W. The couple was married Jan. 28, 1903 so it was two years ago they observed their diamond anniversary.

Mrs. Mahaffay was a member of Elm chapter, No. 271, Order of the Eastern Star, and members conducted Eastern Star services at the Schmaedeke funeral home at Orland Park at 8 p.m. Monday night.

Funeral services were conducted Tuesday afternoon at 1 o'clock with the Rev. Paul Lundell, pastor of Palos Park Presbyterian church, and the Rev. Henry Grishowski, of Hanover, Ill., officiating. Interment was in Cedar Park cemetery.

Besides her husband, Mrs. Mahaffay is survived by two sons, William E., of Benton Harbor, and Robert J., of Palos Park and one grandson, John W.

has to be done if the district is to meet its obligations.

"We are only digging ourselves deeper in debt each year. The situations will not be improved without local support."

The board, in projecting the finances of the district, is anticipating an increase in state aid as well as an increase in its educational fund tax rate.

ditional calls over 1963.

Chief Granat anticipates the number of calls in 1965 will increase in proportion to the continued growth of the area, demanding more of the departments time.

In keeping pace with the growth of the area, Chief Granat is now in the process of strengthening the department's manpower and equipment. Men who are 21 years of age, or over, and interested in serving their community as volunteer firemen, particularly those men who would be available to answer calls during the daytime hours, are invited to contact the chief at the fire house.

He took the job after his retirement from the postal service. Now Mrs. Reinhard is ready for retirement and the couple plan to do considerable traveling.

It was with regret that the village board accepted Mr. Reinhard's resignation at its regular meeting last Friday night.

Death Takes George Green,

George H. Green, 82, son of the late John L. and Mary M. Green, of Frankfort, of Cicero, died in Chicago Dec. 26 and funeral services were conducted by the Rev. Kenneth Young on Dec. 29 with interment in Waldheim cemetery.

Born at Montezuma, N.Y. Aug. 29, 1882 he came to Frankfort with his parents when he was five years old. His father was the first telegraph operator for the E.J. & E. railroad at Frankfort.

George Green went to Chicago in his youth and became engaged in investigative work. He was a security man for the jewelry firm of Jergens & Anderson for many years. At the Century of Progress in 1933 and 1934 he was one of those responsible for the safety of the diamond exhibit there and he handled the annual St. Luke's style show for 33 years. He retired in 1954 after 20 years in security service for Buchsbaum & Co.

Crossing Fight Coming Up Again Before ICC

The Illinois commerce commission has fixed Feb. 2 as the hearing date on the petition of four New Lenox residents who seek to protect Old Hickory road crossing over the Rock Island railroad tracks with lights and gates and so keep it open. The commission has granted the petition of the Rock Island railroad to close the Old Hickory road crossing and the Elmdale crossing .89 of a mile to the west and put in a new crossing that would be protected by gates and flasher lights. The new crossing would be built about 100 feet southeast of the present Elmdale road crossing.

The state of Illinois and the railroad would bear the cost of this new crossing, with the state digesting the biggest bite, taking the money out of funds for building FAI-80. FAI-80 will be crossing the Rock Island in

No one wants to take a tumble and slip on the ice. That's why we often use salt to melt the ice. The two most commonly used types of salt for de-icing are sodium chloride (rock salt) and calcium chloride (white flakes).

Although salt is effective in removing ice and snow from sidewalks and driveways, it should be used with discretion or damage to lawns and shrubs will occur. Both of these salts will injure lawns, trees, and flowers if enough is absorbed by the plants.

As an alternative, fertilizers and plant food materials can be used as de-icers. Sample materials include: urea, a 48 percent nitrogen fertilizer; ammonium nitrate, a 33 percent nitrogen material; and ammonium sulfate containing 21 percent nitrogen. While most any form of inorganic plant food material could be used, these three are particularly well suited for the job.

The theory behind using the nitrogen compounds is that they are available for plant food after they have served as de-icers. Of course, they should be used sparingly . . . same as the chloride salts . . . you can also kill vegetation with too much fertilizer.

When using any de-icer, use only in the amounts recommended by the manufacturer, and place the materials only on the areas that absolutely need melting. Don't pile or blow "salted snow" on shrubs or lawn. As a further precaution, flush, when weather permits, the salted area with water to wash the material away before excess amounts are absorbed into the soil.

During the fall we spoke of the importance of winter protection for newly planted trees and shrubs. Since the next three months are the most critical as far as winter injury is concerned, we feel a reminder is in order . . . especially considering the current lack of snow protection. This winter protection is especially important for trees and shrubs that have been installed in the last three years.

When correctly installed, it provides protection from both wind and sun. Cold

drying winds cause death to twigs and branches not only by their intense cold, but also by their drying effect. Winter sun does its damage in a similar fashion. By heating exposed portions of newly planted shrubs, it causes a loss of moisture which can not be replaced from the frozen ground. The result is the typical winter dieback.

Wind and sun protection is readily accomplished by the erection of burlaps, screens or similar opaque barriers. Although plastic gives excellent wind protections, it does not provide for the dissipation of the sun's heat. This results in the drying and eventual death of twigs and branches. So if you haven't protected your newly planted trees and shrubs, do it soon. You can still protect your shrubs from damage this winter.

AUXILIARY POLICE

The Will County Auxiliary Police will hold their meeting Sunday evening Jan. 17 at 7 p.m. in the supervisors room at the court house. Movies from the Chicago police department will be shown. All members are requested to attend in full uniform.

WHAT TO DO, patch a section or rip up the entire street and build it over? That is the question the village board at Orland Park is pondering. This hole is one of several on Fairway Drive, Fairway Estates and as yet has not been accepted by the village. The developer is expected to come up with a proposal of what he wants to do and the village engineer will recommend what he believes should be done and the street committee will come up with a recommendation but in the end the village board will arrive at a decision. Whatever is done, however, will have to wait until spring. (Clarence A. Lew photo)

The following are excerpts from letters received from Wilma M. Maue, serving with the Peace Corps in Ethiopia, East Africa.

"Well, we're here in Addis, Ababa, via New York, Rome and Athens, and I really know that I am in a very foreign country this time. We arrived about 7 a.m. on Saturday, Sept. 19, and were greeted by new smells, sounds and sights. I was delighted to see all the nationals wearing shammash - the sight of donkeys in the way on the narrow roads the feel of the bumpy buses we rode in from the airfield, all seemed like the real Ethiopia. Our accommoda-

tions aren't bad. Quite comfortable beds, which we carefully dusted with flea powder. Took one whiff and decided I'd have a talk with my fleas first - "Okay, fellows, out! This is where I sleep tonight."

"Assigned to Harar, a beautiful mountainous city of 50,000 with moderate climate, arriving here on Thursday, via a unique trip by rail, single track, all piled into the end car with our luggage, and guarded by armed Ethiopian soldiers, and with the doors barred so people wouldn't pester us at stops with goods to sell or try to board the train. Travelled through the bush, passing herds of camels, very remote little villages, gorge after gorge, termite hills 8 feet tall, hanging birds nests on the flat topped arcacia trees, etc. At all of the villages and towns we were greeted very warmly as "more peace corps".

"Classes have begun and we're beginning to feel somewhat settled. The little children are really sweet. "Harar is fabulously Ethiopian, in the market, the stalls are all open, the goods displayed in stacks on the grounds. The women carry babies in slings on their backs, and you can't even see the baby, just a hanging lump.

"Really wish you could see this thing called Peace Corps. Had a lot of expectations and quite a few anxious little "unknowns" about it, but I had far too many visions of the hardship part. The more I see of the people of Harar and the more I come to know them, the more convinced I become that these people are more than average in intelligence and have for some reason been held back by a lack of material and technical development but they are smart, and really want to learn. That makes it all worth it to be here.

"After several changes in teaching schedules I now teach math and biology.

"Our funny little house (shared by 4 PCV's) is beginning to look and feel like home. As for food, no problems. Plenty of fruit and meat. There is more than sufficient help, and a guard who faithfully guards our home every night from 6 p.m.

"It's already the end of November. Time has never sped by more quickly. Only 19 months left in the Peace Corps. It is so little time in which to do some of the things we so much want to accomplish.

"The heat would be unbearable except that we're so high in the mountains. Some days it is 120 degrees in the sun, but always a comfortable 70-80 in the shade. "The language is still a real puzzle.

"I'll be spending Christmas in Harar. On Christmas Eve we plan to attend services in the little Augustinian Chapel at Besodema-leper colony. I am looking forward to it and to the major's party on Christmas Day.

"It will be impossible for me to get out the usual volume of cards and messages this year, so to all of you "Have a wonderful Christmas and a Happy New Year". We will be thinking about all of you."

Discover the difference in the '65 Chevrolets (As different from other cars as they are from each other)

CHEVROLET - As roomy a car as Chevrolet's ever built.

When you take in everything, there's more room inside this car than in any Chevrolet as far back as they go. It's wider this year and the attractively curved windows help give you more shoulder room. The engine's been moved forward to give you more foot room. So, besides the way a '65 Chevrolet looks and rides, we now have one more reason to ask you: What do you get by paying more for a car—except bigger monthly payments?

CORVAIR - The only rear engine American car made.

You should read what the automotive magazines say about the '65 Corvair. They're wild about its ride. They think there's nothing else this side of the Atlantic that can touch its styling. They say if you haven't driven a new Corvair Corsa with a 180-hp Six Turbo-Chargaarged! you just don't know what you're missing.

Knights Keep Up Winning Ways On Cage Court

Down Reavis 74 To 58, Avenge Loss To Peotone

BY NORM BEEBE

The Knights of Lincoln-Way registered their fifth straight victory in SWS conference play by overcoming the Rams of Reavis 74 to 58 last Friday night. Lincoln-Way is now at the top in SWS conference with a perfect 5 and 0 record. The Knights are 10 and 3 in overall play.

Howie Grimes paved the way for the Knights by contributing 21 points. Following him was Bill Stanfill with 19 and Rick Schroeder with 12.

The Rams now have a 3 and 2 record in SWS play. Rick Simons was top in the scoring column for the Rams with 13 tallies. Following him was Flat with 12 and Sala with 10.

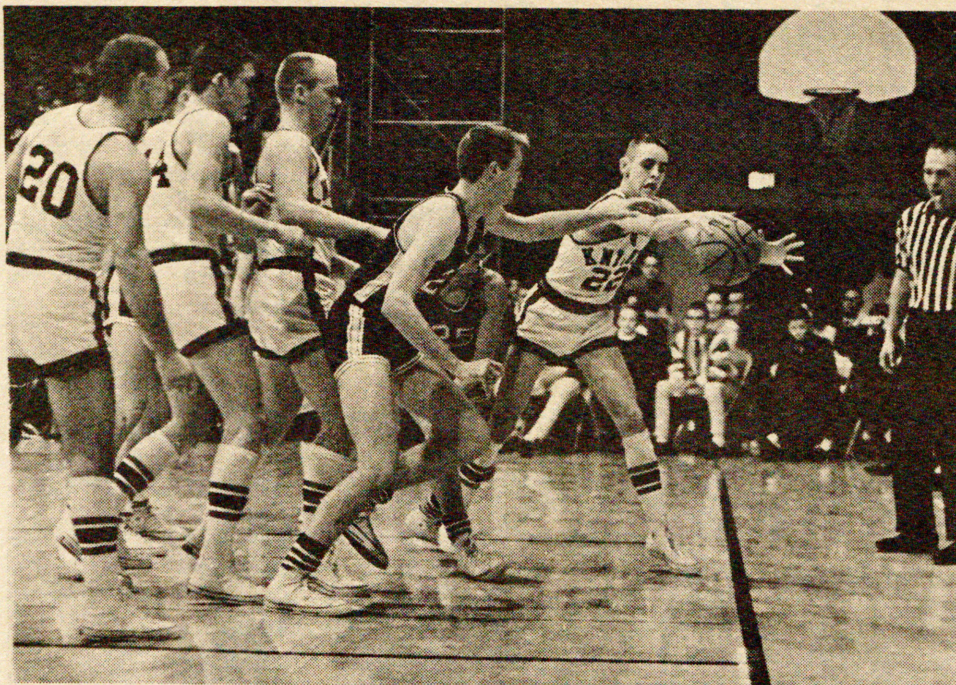

Lincoln-Way hit 10 out of 11 attempts from the field

in the first period and battled the Rams to a 24-20 score. At intermission the Knights led 47-31. The Rams kept up with the Knights during the third period and entered the fourth and final period of play with a score of 62-48. At the close of the fourth stanza the Knights were over the Rams 74-58.

Lincoln-Way's revenge against the Peotone Devils paid off last Saturday evening when the Knights creamed the Devils 76 to 45.

Howie Grimes led the attack for the Knights with a very respectable 29 points followed by Keith Schram with 11 and Tom Hamilton and Rick Schroeder 10 apiece.

This was the 10th victory in 13 games for the Knights.

NOT A CONGA LINE -- just a passel of basketball players running into a traffic jam in the Lincoln-Way -- Peotone game last Saturday night. No. 22 is Keith Schram, of Lincoln-Way, No. 20 is Tom Hamilton and No. 44 is Howie Grimes. That Peotone player crouching with No. 25 on his brisket is Cann. That other Lincoln-Way player is Schroeder.

Eagles Clobber Two Cage Foes--Bremen And Reavis

BY ED PETERSON

The spirited Eagles literally crushed two conference teams last weekend behind the high scoring performances of 6'4" forward, Drew Corley.

Last Friday night, Sandburg played host to Bremen, overwhelming the Braves, 78-56. Corley dropped in 24 points in the rout. The determined Bremen five was simply outplayed in the

lopsided contest. Corley and Bruce Hyink completely controlled the backboards for the Eagles. Hyink scored 17 points and junior guard, Doran Harding put in 15.

In Saturday night action, the Eagles traveled to Reavis to take on the Rams. This game marked the first 80 point output of the year for the Sandburgites as they clobbered Reavis, 81-62.

Corley recorded a career

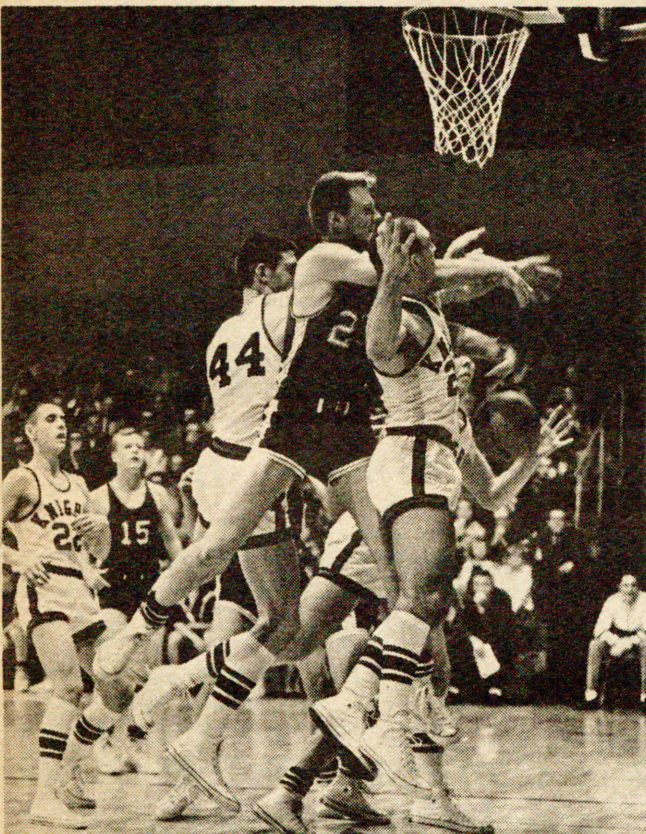

high of 31 points on 14 field goals and 3 free throws. Nineteen of these points came in the first half of the uneven contest. Harding collected 18 on 9 field goals. Hyink managed to score 13 and Broman 9 in the game.

In the last six games Corley has scored 140 points, an average of over 23 points per contest. If he can continue this torrid pace, the junior forward will be a shoo-in for All-Conference honors. Besides his offensive abilities, he has proven himself to be a defensive ace on the floor, rebounding along with the best of them.

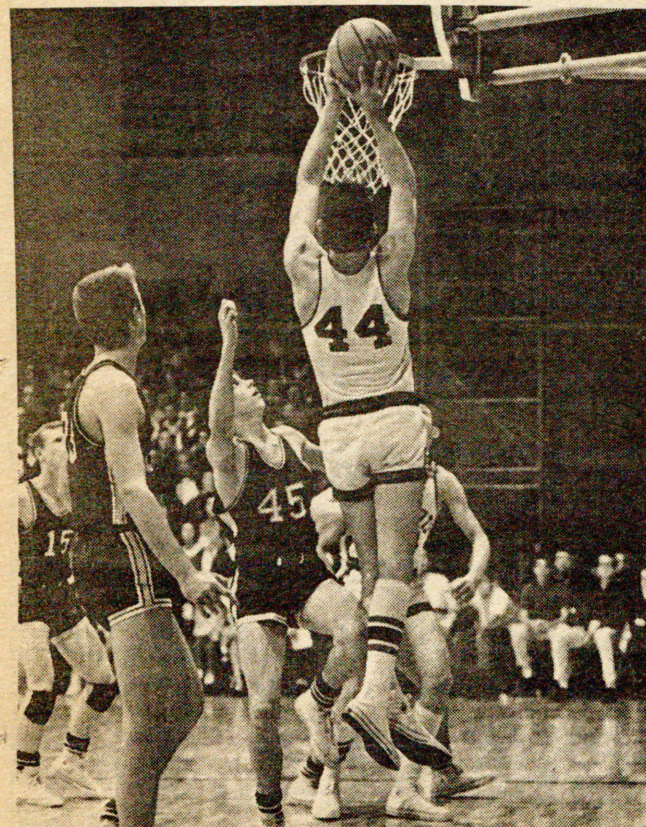

Friday night the Sandburg roundballers play host to Evergreen Park. The Mustangs cannot boast an impressive record this year, but always are a threat. Forwards Glenn Alexander and Bill Ciz are the two powerful men, both underneath the boards and offensively.

Saturday night again features action in the Sandburg gym as the Spartans of Oak Lawn travel to meet the Eagles. Guard Jim Schaffer has been leading all Spartan scorers so far this season and will be the man to stop.

Evergreen and Oak Lawn are the only two teams which

A LOT OF HANDS but none of them had the ball, as you can see. That Peotone man in the middle of things is Engelhardt, with Howard Grimes of Lincoln-Way (No. 44) and Tom Hamilton (right foreground) and the others in the clump are not identifiable. Coming up from the rear are Schram (No. 22) and Clinton, No. 15. (Graphic Newspapers photos)

THERE'S ONE that counts and the shooter, No. 44, Howard Grimes, made quite a few of them in the battle with Peotone in which the Knights avenged an earlier defeat. That No. 45 is Peotone's Maves and No. 15 is Clinton.

George Ware also took a fifth in the same event with a time of 4:27.5.

Coach John Weber expects a hard meet against Hinsdale Jan. 15. Weber expects to do good in the 200 and 400 free style, the backstroke, the 50 and 100 yd. free style.
